

# FLIP HUE

## A game of double standards

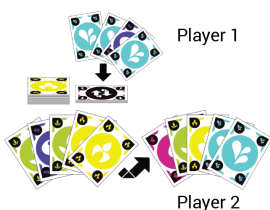

When Pushing or Pulling a card

### Using the Flip Card:

**If it's your turn:**  
On Player 1's turn, they discard their Flip Card instead of pushing a card. Player 1 chooses Player 2, who flips their hand!

**If it's not your turn:**  
On Player 2's turn, they try to pull a card from Player 1. Player 1 instead discards their Flip Card and Player 2 flips their hand!

Flip Hue is an easy to play yet complex two-sided card game. The goal is to collect 5 cards of one Faction color, either in your hand or on the back of other player's hands. To achieve this, you push a card to a player and pull a card from a player. Easy, right? You also have to watch out for the Flip card - it could flip your entire strategy!

### Key Selling Points:

- Two unique mechanics
  - double sided cards and card flipping
- Great gateway game
  - fun for seasoned gamers, accessible to non-gamers
- Strategy based and balanced
  - multiple gameplay tactics available
- Color blind friendly
